**CURRENT PROCEDURE**

At the present time, our water and wastewater plants are being inspected by Base Safety, Fire Department and Navy Environmental Health Inspectors. Quite often, Base Safety and Environmental Health Inspectors will both be inspecting for hearing hazards. It is not unusual to have all three inspectors show up at the same time. Since the operator must be available to escort these people throughout the plants, it can cause problems.

**PROPOSED PROCEDURE (If a directive/order must be waived to implement proposal identify the specific reference.)**

It would be much more economical to cross train one group of inspectors to inspect all utility plants for all Safety/Fire/and Environmental Hazards.

**BENEFITS/ADVANTAGES**

This would decrease billets, thereby reducing costs. It would cut down on the time the operator must spend escorting these inspectors around.

I (WE) UNDERSTAND THAT THE ACCEPTANCE OF A CASH AWARD FOR THE USE OF THIS PROPOSAL BY THE UNITED STATES GOVERNMENT SHALL NOT FORM THE BASIS OF A FURTHER CLAIM OF ANY NATURE UPON THE UNITED STATES BY ME (US), MY (OUR) HEIRS, OR ASSIGNS.
